Sports Association Operate On 1943 Financial Basis

Coleman Community Sports Association are in the middle of a fund-raising campaign to permit them to carry on their splendid work without going to the miners or general public for larger monthly contributions. This concerted effort in the carnival and ticket sales has become necessary due to the higher cost of operation.

Faced with mounting costs and a fixed income, the association finds it difficult to carry out their many projects. At the present time they are forced to operate on a 1943 financial set up. Monthly deductions of 25c per month from each miner and business man provide the association with no more than \$200. per month. Out of this fixed amount all sports facilities must be met. Wages to caretakers and assistants at both rinks has increased since 1943 as has the price of coal. The association income has remained fixed. During the past a new roof, partial cement foundations, furnace and plumbing have been installed at the rink. Yet the association does not want to, nor does it intend to ask the miners for more money.

The 25c monthly from the miners was never intended as a building fund, nor was the rink ever the prime object. All monies are equally distributed between the various sports facilities. The association aims to foster, guide and promote all branches of sport in the territory allotted to it and more especially sports for the younger people. How is this possible unless such places as the rink are kept in shape so that these things may be kept going. Items such as the rink as costly items that if lost through neglect will be hard to replace.

Work is necessary on the sports field and the tennis courts, both of which have been torn up. It is hoped that for safety sake the balance of the cement foundation may be laid under the rink, and the ball diamond must be completely rebuilt. Soil needed to cover this project will exceed \$1,000. The association, if possible, would like to see a 4 inch water line run to this field with 3/4 in. feeder lines running off to stand pipes in order that a water supply is available that grass might

be grown to give a more attractive field and eliminate the blowing of soil off the field. Bleachers should be built and the tennis courts set back in shape ready for the government to hard surface the courts as promised. These things all take money.

Posters are out now advertising the annual Carnival sponsored to raise this money. Attractive special prizes have been set aside on three separate draws and support of these projects will bring your association a little closer to achieving their results. Membership cards and books of draw tickets are in the mails. Your co-operation in selling these tickets will assure the directors of a working capital with which to carry out their aims.

With the intention of putting all the facts before the public while asking for increased support, the association publishes the following condensed financial statement for Apr. 1, 1941 to Mar. 31, 1952.

Receipts—
Mar. 31, 1952 bal. 254.00
International dues \$1,650.00
McGillivray dues 1,094.50
Business people 405.40
Misc. Receipts 986.24
Carn. Receipts 1,990.40

Payments—
Including wages, repairs, maintenance, fuel and carnival expenses of \$1,585.78.

Balance per cash book \$537.05
Add Outstanding cheque 12.00
\$549.05
Subtract outstanding cheques
Light 250.70
Cell 338.29
Debit \$39.94

President of the association is Geo. Jenkins, with J. Kilgannon vice-president. Lord Richards serves as secretary treasurer, with an executive composed of C. Rogers, J. Kilgannon, J. Bayon, C. Roughhead, S. Penny, A. Tappano, G. D'Appollonia, O. Celil, and R. Spillers. These men are working for you without any payment. They need your assistance in carrying this work still further.

HOSPITAL GROUNDS FENCED AND IMPROVED

Improvements underway and contemplated at the C.N.P. Hospital grounds show signs of greatly enhancing the appearance of that centre.

Fencing of the area has been underway for sometime utilizing steel posts set in concrete. Future plans include the paving of roads around the hospital, this work to be done while the crews are surfacing the highway in this district.

ENTRIES RECEIVED FOR FIRE COMPETITIONS

Blairmore and Frank fire departments have entered the hose coupling contests scheduled for Coleman on Labor Day. It is expected that other entries will be forthcoming.

Plans formulated at this time assure those in attendance of an entertaining day. As entries are received and plans definitely made the Journal will endeavour to report them.

Swimming Pool Is Enlarged Future Plans Now Being Formulated

News of improvements to Coleman's swimming pool was welcomed by the hundreds that have daily visited the spot.

With little or no previous fanfare the Sports Association moved in Saturday to enlarge and dredge the river. Through the efforts of Geo. Jenkins trucks were obtained from the town and a truck and dragline from Coleman Collieries. With the exception of some dozing, all mechanical work is completed. Some shovel work remains.

Immediately north of the diving board a small, shallow bay has been created for the smaller children. This area

will see posts sunk and ropes strung to prevent children entering the deeper pool. Sand and gravel will be put down and the banks smoothed.

The main pool has been dredged to a depth of 9 feet making diving safer and swimming more pleasant.

Ropes will be placed at the south end in order to prevent walking from the shallow river into the deep hole.

The Association, have looked over possibilities of the clearing on the east bank. It is the hope to erect a foot bridge across the river. Benches and tables would transform this shaded beauty spot into ideal picnic grounds.

Council Sets Aug. 19 As Court of Revision

August 19th was the date set for the Court of Revision by the Council at their regular meeting Tues. Aug. 5. Mayor Abousaffy appointed the entire board to sit as a court of appeal.

J. Lombardi and I. Bucar waited on the council to obtain permission to install a 200 to 300 gallon propane tank for the proposed bakery in the Lombardi building. This matter will come under fire regulations and was turned over to the town foreman.

The Semi Annual report of the auditors was read with the minutes and financial statement accepted by the council.

Assessment report from assessor D'Appollonia brought up the matter of licensing for those who operate a business on part time basis or from their residence. That was discussed considerably and tabled for a later meeting.

Police Chief Antle presented his report showing a small dock- et of minor offences but reporting thing quiet generally for the past three months. The matter of the bridge at the end of West Coleman was brought up during this report, and council learned that three accidents have occurred there due mainly to the lack of a guard rail. The town secretary was instructed to notify the government that unless this bridge is looked after the Town of Coleman will close the bridge at their end.

Tenders took up a portion of the councils time with tenders accepted for stuccoing the town garage, painting the council chambers and the purchase of a new truck.

W. Antle and J. Malanchuk requested holidays for specified times and were granted the time off. Payments of \$5,000 and \$10,000 on the hospital and school requisitions were also granted.

Coleman Volunteer Fire Department notified the town of the demonstrations to be held on Labor Day and asked assistance in financing the project. Council granted the department \$100, and commended them in sponsoring this show, which is believed to be the first of its kind in southern Alberta.

People show where they are invited—that's why it pays to advertise.

Soc. Credit Endorsed By Kovach Election

The pre election campaign prevailed here August 5th with little or no excitement registered as electors went to the polls to re-elect Social Creditor Wm. Kovach for a second term. The quietest campaign in years seemed a forgone conclusion even before the polls closed. Actual count showed the successful candidate leading his only rival by 218 votes.

The Pincher Creek-Crows Nest Constituency featured a two way fight between Kovach and liberal standard bearer T. Costigan of Blairmore, and won the honor of being the first in the province to declare a candidate elected. Indefinite figures estimate that those eligible to vote would run at 7 to 8000 of which approximately 50 percent or 4,148 exercised their franchise. This was a decrease over the 1948 percentage. Votes cast for Kovach totalled 3,204 as against 986 for Costigan. Some idea of the voting trend may be shown by the following figures:

Poll	Kovach	Costigan
West Coleman	88	37
West Coleman	66	24
Centre Coleman	85	17
Centre Coleman	98	23
East Coleman	114	10
East Coleman	98	23
East Coleman	112	22
Frank	96	10
Hillcrest	344	49
Burns	42	15
Burns Camp	26	0
Ludfbrek	63	9
Pincher Creek	425	234
Blairmore	612	201
Bellevue and Passburg	451	99

Those working at the polls in Coleman were: Mrs. Dave Dow, Mrs. M. Fleming, C. Rejmar, Margaret Siska, Mrs. Mary Atkinson, Mrs. V. Phillips, Mrs. Walter McLeod, Mrs. Anna Vangotsinov, Mrs. Janet Bayon, Mrs. Emma Fontanna, Mrs. Jean Fields, Mrs. Millie Symansen, Mrs. C. Low, Mrs. Robt. Bell, ...V...

Notice To Elks

Anyone having books of tickets on the Elks Dance and Grocery Draw must report progress to J. M. Rushton not later than Aug. 18.

Advertising acts as a tonic to any head of business enterprise.

Mystery Of Upside Down Mountain Explained By Notes Geologist

Various stories have been told about Crows Nest Mountain being upside down or not on its own base. This account is hoped to explain this.

The mystery of the mountains and more especially the mystery of Crows Nest Mountain have been explained by Dr. H. Frebold, of the Geological Survey of Canada, Department of Mines. Assisted by C. Pollock, University of Oklahoma and R. Manson, Queens University, Dr. Frebold has been actively engaged in a survey of the Fernie formation here. Visits have been made to Grassy Mountain, Adanac, Corbin and Fernie.

A former professor of Geology at the University of Greifswald, Germany, and the University of Copenhagen, Denmark for 17 years, Dr. Frebold explained the actual meaning of Crows Nest Mountain being upside down. In the Crows Nest mountain he explains, the cretaceous shale, or Colorado shale is below very much older rocks. This is not the result of the mountain having been turned over, but a result of the western thrust.

Explaining first the forming of mountains in this part of the country, Dr. Frebold was better able to explain the mystery of the Crow. Just why there are mountains here and not in other places and why are there certain dips and foldings, evidences of which you can see right here in the Pass. This has been done in comparatively young years geologically, although it happened millions of years ago. Every continent has an original old land mass, which cannot be further shaped or folded and it is to these land masses that the folding is done. Canada's land mass is the Canadian Shield in the east, which is one of the oldest in the world. As time went on and millions of years passed, seas surrounded this mass, receded and came back again time after time, each time they receded they left more deposits of sediment until the area around the mass was solid land. At the time of the formation of the Colorado shales now at the base of the Crow, there

was a great revolution of earth, a thrust from the west. This thrust can be explained by pushing a magazine against a wall. The wall being an immovable object represents the Canadian Shield and the weaker magazine representing the younger formations arched and creased just as the earth would. This arching formed the mountains that we have today. Just as it arched so did it break off in sections. Some of these sections of older rock from the west broke off and were pushed on top of rock formations millions of years younger. Such was the case with the Crow. The base of the older or top portion of the Crow is situated some miles west of Coleman, according to the finding of Dr. B. R. MacKay, one of the explorers of this area.

This situation is not only found in the Crow but at many other places, including the Cascade Mountain at Banff.

Dr. Frebold explained that coal here is being taken from the Kootenay formation, under which is the Fernie formation, the formation that he is studying. Millions of years ago this area was covered by a sea, the sea that made the deposits resulting in the formation of the Fernie formation. The sea had a maximum depth of about 500 feet and is of special interest in the search for oil. Trying to determine the location of islands in that sea and the former coastline, the survey will give indications as the depth and direction to go to find oil deposits.

Of further interest to the local people, Dr. Frebold explained, was the formation above the Kootenay formation, the Blairmore formation. Evidences of this is seen in the green and red rocks evident here. This was formed at the time of the dinosaur age, and the geologist reports having found a dinosaur bone while collecting fossils at Grassy Mountain.

Carnival Will Raise Money For Sports

The three days that most everyone has been waiting for is only a matter of weeks away, the Coleman Community sports association carnival.

To be held in the arena Friday Saturday and Monday Aug. 29, 30 and Sept. 1 at 8 p.m. each night, the carnival will feature 19 booths and rides for the kiddies. Refreshments will be catered to by the Order of the Royal Purple, with all proceeds going to the Sports Association. Draws will be made each night on major prizes, a bicycle on Friday, three piece luggage set on Saturday and a five piece chrome kitchen suite Monday night.

Acme Novelty are supplying the games again this year and are bringing a variety that should please every taste. Prizes are of good quality and every winner takes a prize. Straight bingo will be played at this carnival.

This is your opportunity to help the association help sports in this area and at the same time enjoy a night out. Who knows you may win some of the valuable prizes offered.

R. Spillers Tours Area With Geologist

Spending his vacation in keeping with his sporting nature and gaining an insight into the vast area comprising the Rock Mountains, Ray Spillers will return to his classrooms this fall with a wealth of background and information for his students.

Accompanying Geologist D. Norris of California, Mr. Spiller has been operating out of Canmore and reports that a number of interesting fossils have been found. The area that they have covered has taken them through some of the most beautiful scenery. The party plan shortly to leave that area and continue their work in North Kootenay Pass and Windsor Mountain area.

Acting merely as an observer, Ray has learned considerable concerning rock structure and stood by as Mr. Norris compiled his data, mapped the creek areas, and made a study of rock formations. Last Saturday and Sunday they observed American scientists at work on the Saskatchewan Glacier, 130 miles north west of Canmore. These scientists were using astromograph techniques measuring the depth of ice and crystal patterns.

Residents Guide Banff Trail Riders

Four men and a young girl from Coleman have recently returned from mountain trail rides at Banff. Under the guidance of the veteran of trail rides, R. Bagley, Jack Kerr, Bob Park, Albert Getman and Miss Jean Bagley directed two parties for Brewster Transport at Banff.

Operating from a camp ten miles from Banff and at an elevation of 7000 feet, the youthful guides led parties of 55 and 65 riders from points in Canada, Mexico and U.S.A. and daily trips often going as high as 9000 feet up. Among the riders was a representative of a Montreal firm taking moving pictures for television. Every member of the trail rides lived in tents, brilliantly painted in Indian design and were free to fish or do as they pleased.

Night herding and other duties while at work often permitted the guides in seeing sights not afforded the tourists. Highlights of the trip for Jack Kerr and Albert Getman were encountering a grizzly while going for the horses and the case with which cooks were able to bake pies for 65 people on a small wood stove.

Members of the Coleman Fire Department have been busy practicing for the hose coupling contest on Labour Day. Test runs last week showed the team to be getting a good time.

Vacation School Has Large Attendance

A very successful Daily Vacation Bible School was held in Coleman under the sponsorship of the United Church and The Salvation Army. As the School progressed, interest grew and the highest attendance reached was fifty-six with an average attendance for the entire six days being fifty-one. Three classes were held, one class for pre-school children of four and up and grade one. The next class was for children of grades two, three and four with the other class being for children of the higher grades. The teachers for the School were: Mrs. J. McIntyre, Mrs. J. Allan, Mrs. I. Dixon, Mrs. R. Skierkowski, Miss Sudworth, Miss Marilyn Murdoch and Captain Wm. Carey. The last named was also director of the School.

On the last day of the school a closing program was held in the United Church when each group gave an item showing some of the work they had had during the six days. Interspersed was a saw solo and a saw and violin duet by Mr. Jack Heinrichs on the saw, and Mr. Jake Heinrichs on the violin. Mr. Percy Dickenson spoke words of appreciation to the teachers.

Rev. A. E. Morrison presented over forty certificates for regular attendance after which the parents were allowed to view the work of the various classes which was exhibited in the Church Hall.

Two Airmen
Die In Plane
On Busy Road

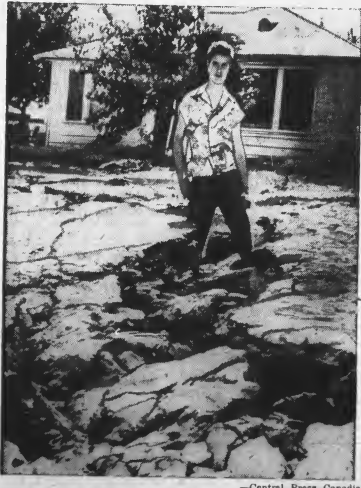

FIFTY CANADIAN CO-EDS TAKE R.C.A.F. SUMMER COURSE—At the R.C.A.F. station at London, Ont., 50 co-eds from four Canadian universities are taking a summer course which has them studying world affairs, air force law and other academic subjects, and acquaints them with R.C.A.F. equipment. Marksmanship is one of the favorite courses of the training and their instructors admit the students are pretty good. Left to right, Sylvia Novak, University of British Columbia; Sandy James, McGill; and Kay Stirret, Toronto. The summer course is a new venture for the R.C.A.F.—Central Press Canadian.

TWO AIRMEN DIE AS FLAMES PREVENT RESCUE—On a busy roadway at Malton, Ont., the framework of a Cessna airplane smoulders after it crashed and burned shortly after take-off. Two men, Cy Fairhurst and Robert Tomlin, were killed. Observers said the plane appeared to have something hanging from the engine and the pilot had attempted to turn back to the airport to land when a gust of wind pushed the plane into hydro poles. Within seconds the plane was surrounded by people who could not penetrate the flames.—Central Press Canadian.

R.C.A.F.-U.S.A.F. EXERCISE ENDS WITH BOMBER ATTACK—Ending Exercise Signpost, pilots of the R.C.A.F.'s City of London Auxiliary squadron stationed at Rockcliffe, Ottawa, scramble for their Mustang fighter planes to intercept a squadron of hostile bombers heading for hydro developments in the Laurentian mountains. The exercise was a training scheme jointly planned and controlled by the Air Defence Commands of the R.C.A.F. and U.S. Air Force and employed Lancaster bombers, jet planes and Mustangs and thousands of military and civil defence personnel.—Central Press Canadian.

EVIDENCE OF EARTH'S POWER—A native of Arvin, Calif., Jack Garren stands knee deep in one of the giant fissures left in the ground by the violent earthquake that struck the West Coast recently, taking a toll of eleven lives. Dr. Hugo Benioff, of the California Institute of Technology, reports that settling jolts from the quake are now tapering off.—Central Press Canadian.

POPE GREETES 5,000 YOUNG VISITORS—Pope Pius XII received some 5,000 children from eight to 10 years of age recently. The children—youngest members of the Italian Catholic Action society—met with the Pope in the throne hall of St. Peter's during a massed general audience. His Holiness chatted with the youngsters, who came dressed in regional costumes. In this photo the Pope touches the young face of a boy dressed in traditional Sardinian clothes.—Central Press Canadian.

EGYPT'S NEW STRONGMAN, Gen. Mohammed Naguib Bey, and Premier Aly Maher Pasha (left), encircled by soldiers and civilians, confer at Maher's office in Alexandria, Egypt, after the premier delivered an ultimatum to King Farouk, ordering him to abdicate and clear the country within six hours. Maher said Farouk abdicated "according to the will of the people." A few hours after the ultimatum was delivered King Farouk and his family sailed aboard his yacht for exile in Italy.

HMCS MAGNIFICENT DESPATCHED TO SUEZ CANAL—Among the flotilla of Commonwealth ships detailed to the Suez canal is the Canadian aircraft carrier Magnificent. She was on courtesy call at Istanbul, Turkey, when ordered to speed to Egypt following the abdication of King Farouk. The 18,000-ton ship carries a complement of 1,100 officers and men.—Central Press Canadian.

SOMETHING IN COMMON — WHISKERS—Petty Officer Howard Bailey of Saint John, N.B., and Halifax, shows the same respect for this Korean's whiskers as he would for his own, as he carefully gives this elderly villager a light. PO. Bailey, medical assistant on board H.M.C.S. Nootka, was one of a party from the Canadian destroyer that visited a Korean island village during a patrol.—Central Press Canadian.

FIFTEEN MILLION ARGENTINIANs mourned the death of Eva Peron, wife of Juan D. Peron, president of the Argentine Republic. Tremendous mobs of people packed the streets outside the palace in Buenos Aires caused the death of three persons and injured scores of others.

HANDLES BILLIONS—George S. Cowie, newly appointed treasurer of the C.N.R., annually handles far more money than the average thousand men have any hope of seeing in their lifetime. In his care are Canada's biggest payroll—\$381,000,000—and company transactions that run to about a billion and a quarter a year. He estimates that in his life he's handled 17 or 18 billion. But he's a lot like other men—he says Mrs. Cowie handles the family budget.—Central Press Canadian.

NOTES AND COMMENTS

WHY WAIT FOR DEATH?

The expected happened Saturday night . . . a speeding car crashed into a parked car doing extensive damage to both vehicles. This is another minor accident on the new highway through town and the hard surface is still months away. Will we wait until someone is killed before action is taken?

Street corner conversation for months has centred around the speeding problem on the highway and even some of the braver souls will admit that there is an ever growing speeding problem right on the town streets. Well, let's quit talking about it and do something.

Saturday night's accident happened a few minutes too early to claim a victim. The parked car was awaiting its driver, who had already reached his front door ready to take his guests home. What would have happened had he been a minute sooner and just getting into his car? A small fine would hardly cover the suffering that he would have had forced upon him.

Furthermore, what would have been the results had there been no car parked at that spot? Would the telephone pole have stopped the speeding car or would it have gone into the house by the side of the road?

It is time that we started thinking about these things. Speeding has got out of control and reckless driving is increasing, especially around the midnight hour of Saturday. The next accident may take a life. Remember that there are a lot of intersections on this new road and the kiddies start back to school very very soon.

THE JOURNAL NEEDS YOUR HELP

Any weekly paper is merely the eyes and ears of the area that it covers. Its purpose is to observe and relate to its readers those things that might be of interest to them. It should bring ideas before the people but at no time should it set itself up as an authority. It is the paper of the people and should have the co-operation of the people

It is the little items that make a newspaper, the doings of Mr. and Mrs. Jones and their family. It is these items that the Journal wants and needs your assistance.

It is impossible to know of the actions of everyone without some notice beforehand, and with this in mind we ask your assistance in sending your news, and as early as possible. There's a mail box on the front door to slip your items into should the office be closed. Advance notice on such functions as golden weddings will permit our staff to govern their work in such a way as to allow time for an interview and full coverage. With your assistance we can make the Journal a paper truly serving its intended purpose . . . a paper for and about Coleman.

Veteran Canadian Pacific Airlines Captain Robert C. Randall (front) of Vancouver, shows his twin sons, Howard (left) and Robert Jr., who have just started their careers as first officers on C.P.A. domestic routes, the route he follows on flights between Vancouver and Tokyo for the airline. The two boys are ready any time to listen to dad, who started flying five years before they were born. Captain Randall began commercial flying in 1928, and his service with the airline dates from 1937, when he flew with one of the smaller companies which amalgamated later to form Canadian Pacific Airlines.

Local Girls Tour Western States

Misses Agnes Kanik, Irene Hazuka, Lucille Miller and Tessie Koruska have recently returned from a trip to various points in the western section of U.S.A. Miss Miller and Miss Koruska were first to take the trip.

Leaving Coleman by Greyhound, the girls visited Portland, San Francisco, Los Angeles, Las Vegas, Salt Lake City and Boulder Dam. Various sight seeing trips were enjoyed at the different centres.

Miss Kanik and Miss Hazuka report the highlights as visiting Frisco's famed Chinese section, the giant Redwood trees, and seeing the famous Andrews Sisters at the Flamingo Club in Las Vegas, the Grotto Sanctu-

ary of the Blessed Virgin Mary in Portland, and the famed Mormon Temple, Bingham Copper Mine and the famed ski resort of Alpine Rose Lodge at Salt Lake are only a few of the educational and interesting spots included in the trip.

Local Family Leaves On Trip To Italy

Mr. and Mrs. Francesco Benedetto and son Antonino left Coleman August 5 to visit Mr. and Mrs. Benedetto's homeland of Italy. Prior to their departure they were uncertain as to whether or not they would return to Canada.

Sailing from Halifax they will go direct to Reggio Calabria in the south of Italy. Mr. Benedetto will visit with his three sisters

while there, while Mrs. Benedetto will be reunited with her mother and three sisters. A daughter Katherine has already arrived in Italy landing at Naples on July 27th after a pleasant crossing. Katherine was employed as a teacher in Cameron school here.

Arriving in Canada from his homeland, Mr. Benedetto came to Frank in June 1906 as a boy of 17. The same year he moved to Coleman and found employment as water boy during the construction of the coke ovens. Remaining with the International Coal and coke company, he served in various departments until his retirement on June 30, 1952. Reminiscing about the early days he recalled living in Frank and working at Coleman for the first three months. Night and morning he

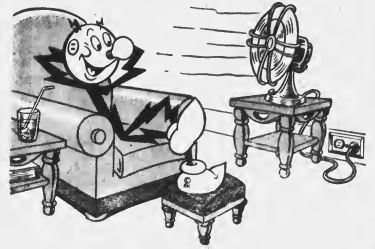

walked between the two towns following the railway tracks to earn \$1.25 for a ten hour day. Coleman was a small place at that time consisting mostly of small shacks.

At the outbreak of the First Great War he enlisted in the Italian Army recruited here in Canada and served the Allied cause. At cessation of hostilities he returned to Italy where he married Angela Campio in 1919 returning to Canada shortly after.

Three children were born of this marriage, Antonino, Susie (Mrs. A. Race, of Coleman) and Katherine. There are two grandchildren.

Active in the community during their residence here, both Mr. and Mrs. Benedetto belonged to the Italian Lodge, he serving for many years as a trustee and Mrs. Benedetto being one of the founders of the ladies lodge. Both are members of the Holy Cross Church.

Road Crews Making Good Progress

Despite the delay caused by the truckers strike, each day brings paved roads a little closer to Coleman.

East of Blairmore gravel and the oil coat are already laid with the exception of an odd spot and has made motoring a great deal smoother. Crews working from the west have been nearing Coleman the end of last week with a fresh coat of gravel. Expectations are that the work will be completed within a period of two months.

Local Cancer Drive Well Received

The honor of putting the Lethbridge and district Cancer drive over the top has been awarded the Coleman people and the local Lions club according to a release issued by the district chairman.

Under the chairmanship of Lion president Harry Holmes, the local citizens contributed \$1,213.20 in the fight against this dread disease. District campaign manager T. H. Caldwell asserts that this has been perhaps the best campaign to come out of the Pass mining town to date.

Credit for this successful campaign goes to the generosity of the Coleman citizens and the efforts of the Lions.

Lights To Be Installed At Approaches

A set of blinker lights will be installed at both the eastern and western approaches to Coleman shortly in an effort to curtail the speeding that has been prevalent to date.

Along lines to ensure the safety of its citizens, the town council has secured these warning lights and will erect one on the highway just opposite the P. Dickieson residence. The other light will be placed at the eastern limits of the town.

While discussing lights, council considered the installation of the new neon sign purchased by the Board of Trade. It was felt that this sign should be erected in time to assure hard surfacing at its base, giving it a much neater appearance.

New Bakery Planned

The possibility of another business for Coleman was felt last weekend when I. Bucar of Pincher Creek sought permission to establish a bake shop in the Lombardi building situated between the Coleman Cleaners and the Salvation Army.

A rancher in the Beaver Mine district, Mr. Brucar will come here known to Coleman people, having operated a bake shop a few years ago in the building now occupied by Slim's Tire Shop. Waiting on the town council at its regular meeting Tuesday Aug. 5, Mr. Brucar asked permission to install a propane unit and must await the decision of fire inspectors.

THEATRE NOTES

Aug. 16 and 18, "The Racket". This story boldly begins where the Senate Crime Committee left off.

Aug. 19 and 20, "The Milkman". If you don't think the fellow who leaves the milk at your door leads an interesting life see this show and learn what happens to Jimmy Durante and Donald O'Connor.

Aug. 21 and 22, "Close to My Heart" with Ray Milland and Gene Tierney. An important girl, an impulsive man and a bold bright look at what made their love go-round.

Aug. 23 and 25, "I Can Get It For You Wholesale" starring Susan Hayward, Dan Dailey and George Sanders. This is the spectacular story of a woman in a man's world. The girl that said "I've been pinched, patted and kissed . . . I've fought my way out of cabs, bars and hotel rooms. But I've learned this business and I'm going to the top."

Aug. 26 and 27, "Slaughter Trail". The borders bloodiest battlefield flares into fury again when frenzied redskins storm the U.S. Cavalry tiny outpost.

Aug. 28 and 29, Abbott and Costello Meet "The Invisible Man". You'll shiver, you'll shudder, you'll shout with laughter.

Ken Sherwood, of Coleman tied for second place at a trap shoot held at Blairmore recently. Ken got 21 out of a possible 25.

Coleman people who were recent patients in the local hospital include Mrs. Olga McDonald, Alex Myssynuk, and Mrs. Edna Wilkie.

E. W. Hinman, former school inspector for Pincher Creek—Crows Nest Pass and now of Cardston, was elected as a Social Credit member in the provincial elections.

Mr. and Mrs. David Anderson and son Brian, also Mr. Anderson's brother George, of Estevan, Sask., have taken up residence at Coleman. David Anderson is employed at the International mine.

The following Colemantites attended the circus at Fernie Aug. 2; Mr. and Mrs. G. Rushton, Mr. and Mrs. J. Rushton, Mrs. J. Derbyshire and son Jack, Mr. and Mrs. B. Gentile and family, and Mr. and Mrs. S. Murdoch and family.

Dr. and Mrs. B. MacLean and family, of Blairmore left recently for England where Dr. MacLean will take a year of post graduate study. During his five years in the Pass he has made many friends and gained an enviable reputation in his work. Dr. Fred Russell, of Edson and formerly of Bellevue, will commence duties in Blairmore in September.

Mr. and Mrs. Harley Dunlop have just completed a very interesting motor trip through Logan Pass, Vernon, the Big Bend, Revelstoke and Calgary.

Mr. Bernard McDonald, high school teacher at Cadomin and younger son of Mr. and Mrs. Jack McDonald, is enjoying a trip by air to Britain and continental Europe. He is revisiting many of the sites he saw as a soldier during World War 2.

Mr. and Mrs. Steve Snider and two children have left for their home at New Westminster following a vacation spent here. While in Coleman they were the guests of Mrs. Snider's mother Mrs. Thierberg and brother Henry.

Miss Della MacQuarrie began her duties as matron of Drumheller Municipal hospital Aug. 1. She completed a six month post graduate course in nursing June 1, in New York City. She was on the staff of the local hospital one year prior to leaving for New York.

Mr. and Mrs. Charles MacQuarrie and daughter Anna and Della have returned from a seven week holiday spent on Cape Breton Island, N.S. and other points across Canada. They were accompanied by Mrs. M. McKay of St. John's N.S. Mrs. MacQuarrie's sister, who will holiday here and at Vancouver.

Fernie topped Coleman Cubs in both fixtures of a double header recently, taking the first game 12-5 and the second 10-7. Highlighting the second game was a disputed play which resulted in Coleman leaving the field and refusing to return till one of the officials was replaced.

A family reunion was held at Waterton last Sunday attended by Mrs. M. Foster, Mr. and Mrs. Roy Foster and family, Mr. and Mrs. Ross Foster and family, Mr. and Mrs. G. Oliver and son, Mr. and Mrs. Robt. Foster and son Roy of Boston, Mrs. A. MacLean, and Mr. and Mrs. E. McRae and son, of Macleod.

Mrs. Margaret Zemek, R.N. has left for Duncan B.C. where she has secured employment at the hospital. A member of the staff of the Municipal hospital here for three years, she was presented with a travelling clock by the hospital staff, and an engraving of Crows Nest Mountain by Quahwa was given her by the staff. Many of her friends gathered at her home to wish the Zemek family good luck in their new home. The many souvenirs given them testified to the high esteem in which Mrs. Zemek and her husband are held.

Weddings

FRAYN - WALKER

A lawn wedding was held on Aug. 4, at 2.30 p.m. at Rimbey, when Mrs. Wilhelmine Walker, daughter of Mr. and Mrs. J. Michalsky, of Coleman, was united in marriage with Thomas Leonard Frayn, son of Mr. and Mrs. T. M. Frayn, of Rimbey, Rev. W. E. Julian officiated.

The bride, given in marriage by her brother-in-law Harold Jones, wore a sky blue gabardine suit with pink and navy accessories, and carried a bouquet of pink roses. She was attended by Mrs. Judy Frayn, of Gadsby, who wore a grey gabardine suit with pink and navy accessories and carried a bouquet of pink and white carnations.

Mr. Art Frayn, brother of the groom, was best man.

A reception followed at the home of the groom's parents, where a two tiered wedding cake centered the brides table. The toast to the bride was given by Mr. Art Frayn. During the evening a wedding dance was held in the Rimbey hall.

For travelling, the bride donned a matching topcoat and wore a corsage of red roses. The honeymoon was spent at Sylvan Lake and points north, after which the couple will reside in the Crows Nest Pass for the present.

Out of town guests included Mrs. J. Michalsky and Josephine, Mr. and Mrs. H. Jones, Leah, Donald and Claire, of Coleman, Mrs. S. A. McLean and Miss Frances McLean of Lacombe, Mrs. B. Paynter, Marjorie and Jimmie, of Edmonton.

**Change of Ownership
Coleman Meat Market**

Mr. Geo. Misura is sole proprietor of Coleman Meat Market, effective Aug. 1.

An announcement to this effect was made the first of the week. Prior to this Mr. Misura was in partnership with Mr. Steve Rypien.

There are no staff changes under the new ownership.

**Coleman Students Win
Writing Competition**

Two Coleman students brought honor to themselves and Coleman this week with the announcement of winners of the I.O.D.E. Writing Competition.

Archie Stewart placed 2nd in Class B poetry, grade 7 to 10, winning \$10 for his poem "Wild and Woolly West".

Glory Kroesing placed third in the same section, winning \$5 for "A Dream of Spring".

**Coleman Cowboy Wins
Honors at Fernie**

Colemans own cowboy, Geo. Aldoff continues to add to his honors as the rodeo season draws to a close.

At the Fernie Rodeo George split 6th prize in bareback riding, 2nd in steer decorating and 4th in saddle bronc riding.

**Water Restrictions
May Be Imposed**

Fear of a water shortage unless public co-operation is received have been expressed by the council.

Supplies are adequate at the

present time unless indiscriminate use continues. Pumping has begun and no restrictions will be imposed unless citizens use more than their needs.

Warnings have been issued to this effect, however if wet weather continues it is fairly certain supplies will be plentiful again.

**No One Injured In
Highway Accident**

A late model car reported to be from Bellevue, crashed into a parked car on the highway through Coleman Saturday night. Damage to both cars was heavy.

Coming from the west, the Bellevue car is reported to have turned out to pass another car, sidwiped the car belonging to R. Lingard, and ended up on its side at the Catholic Hall corner. When coming to a stop on its side the car was facing the opposite direction. Mr. Lingard's car was parked off the highway opposite his residence. No one was in the car.

Town Constable Antle and the R.C.M.P. were called to the scene.

NOTICE

NOTICE is hereby given, of the following application to the Provincial Secretary, under the provisions of "The Change of Name Act":

1—I, Ludwig Stownyzy of the Town of Coleman in the Province of Alberta, Steam Engineer hereby make application under the provisions of "The Change of Name Act", for a change of name as follows:

From my present name Ludwig Stownyzy to Loyd Hillton Stanley.

2—My wife's Full Name is Alice Victoria Stownyzy.

3—My unmarried infant children's full names and ages are: Lewis Joseph Stownyzy, 1½.

4—And I also make application as aforesaid for a change of the given name or names of my wife and of my or her unmarried infant child or children as follows:

From Alice Victoria Stownyzy to Aleat Stanley; From Lewis Joseph Stownyzy to Donn Godwin Stanley.

5—I, Aleat Victoria Stownyzy wife of the above named applicant, hereby consent to the foregoing application for a change of name.

Alice Stownyzy In witness whereof, I have hereunto set my hand, this 1 day of Aug. AD. 1952 at Coleman, in the Province of Alberta.

Signed by the above named applicant in the presence of: J. C. Pilford.

(Witness)
Ludwig Stownyzy
(Signature of Applicant)

**NOTICE
TO WATER CONSUMERS**

Notice is given that, unless needless waste of water is discontinued, some action must be taken by the Council of the Town of Coleman to assure a ready supply.

Water supplies are ample at this time and no restrictions will be imposed if all citizens use only the amount necessary for their needs.

A World Problem

FOR SOME TIME HOUSING has been a major problem in nearly all parts of Canada. Since the war many thousands of homes have been built, but in spite of the increased activity in building, the demand for homes has not yet been fully met, and there is still need for many new houses, especially those designed to meet the needs of families with moderate incomes. It is interesting to learn that Canada is not alone in having a housing problem at this time. A recent report by the United Nations on world social conditions, says "there is no country without a housing problem" and tells of the situation in various parts of the world today. In Europe the situation is due, in part, to the fact that 5,667,000 dwelling units were destroyed during the war. If the building industry were to double its prewar output of 800,000 units a year, it is estimated it would take twenty-two years to meet the need for housing there.

Is Need For Many Homes

Serious as the problem is in Europe and on this continent, we are reminded that in some parts of the world the housing problem is infinitely greater than anything which has been experienced here. In India, the report on social conditions states, nine out of ten homes are one-room tenements. The situation in Africa is also very bad and of conditions there the report says "the number of people who, for the common good of the world, need to be re-housed is just about equal to the total number of people." Continuing, the report cites conditions in the United States, where average housing conditions are far superior to those in South-East Asia and Africa, but there is still need to build 500,000 housing units annually for the next ten years, to meet the requirements of the people. One solution to the problem which is suggested in the report is for long-term planning in building.

Point To Need For Planning

Such planning would enable the building trades to foresee the needs and to prepare to fulfil them. In our own housing shortage in Canada lack of necessary materials and of skilled workmen have been factors in delaying the building program. Long-range planning here would have been an advantage as it would also in other countries. The world housing problem ranges from building more homes in a country like this, to introducing plans for proper housing in countries where none exists. The United Nations report has shown, among other things, that housing is a world problem at this time, and that there are other countries more seriously affected than our own.

Canada To Double Output Of Uranium Next Spring

Basic Atomic Ingredient Will Come From Beaverlodge Property in Northern Saskatchewan

OTTAWA.—Canada has set next April as the target date for the opening of new facilities that will at least double her output of uranium. The United States is expected to get a substantial part of the new production, as the U.S. Atomic Energy Commission indicated in a report issued recently in Washington.

The new production of the basic atomic ingredient will come from the Beaverlodge property in far northern Saskatchewan. It may well surpass the initial Eldorado Mine at Port Radium in the Northwest Territories. Both are controlled by the government's Eldorado Mining and Refining Ltd.

The U.S. report reiterated the statement that an American atomic

Sask. Breeders To Hold Sheep And Swine Show

REGINA — Saskatchewan sheep and swine breeders will hold their annual fall show the week of Oct. 27. It was decided at directors' meetings of the Saskatchewan Sheep and Swine Breeders' associations at the Provincial exhibition.

There had been some doubt as to whether fall shows would be held but the meetings decided that they should get the sales and shows routine going again as soon as possible following the recent outbreak of foot-and-mouth disease.

Had Eczema For 40 Years

Itching Misery Spread Over Hands, Arms and Legs Tells How He Found Relief

"I gave up all hope of ever getting relief from my terrible skin trouble. I tried everything," writes Mr. M. R. of Vancouver, B. C. "I was compelled to leave a good job on account of the condition of my skin. I read about your Eczema Oil—bought a bottle and applied a few drops on my raw flesh. Eureka—what had I found! I wish you could see my skin today. I wish to heartily thank you. If you or any relative or friend suffer from any form of itching skin trouble, you will make no mistake in giving MOORE'S EMERALD OIL a trial. Sufferers—Eczema—but extremely effective. MOORE'S EMERALD OIL is obtainable wherever drugs are sold."

SELECTED

Recipe

SALMON SUZETTES

2 tablespoons butter or Blue Bonnet Margarine
2 tablespoons flour
1 cup milk
1 cup once-sifted pastry flour
or ½ cup once-sifted all-purpose flour

1 teaspoon Magic Baking Powder
Salt

2 eggs, well beaten
¾ cup milk

1 ½ pound can salmon, flaked
2 tablespoons toasted chopped almonds

1 tablespoon chopped green pepper, if available

Pepper

Few grains ground nutmeg

1 egg yolk, lightly beaten

1 teaspoon Worcestershire sauce

Melt butter or margarine in top of double boiler and blend in the 2

tablespoons flour; slowly stir in the 1 cup milk. Cook, stirring constantly, until sauce is smoothly thickened.

Cover and keep hot over boiling water.

Mix and sift once, then sift into a bowl, the 1 cup pastry flour or ½ cup all-purpose flour, Magic Baking Powder and the ¾ cup milk.

Combine the 2 well-beaten eggs and the ¾ cup milk.

Make a well in the flour mixture and add liquids gradually; mix until smooth.

To the sauce, add salmon, almonds and green pepper, if being used. Season to taste with salt, pepper and nutmeg; heat thoroughly.

Stir a little of the flour mixture into the slightly-beaten egg yolk; return to double boiler and cook, stirring gently, until thickened. Stir in Worcestershire sauce.

Bake batter as very thin pancakes; spread with salmon mixture and roll up.

Serve immediately.

Yield: 4 servings.

BOOST SHEEP FARMS

ST. JOHN'S, Nfld.—Efforts will be made to turn the Cape Shore area into an important sheep farming section this summer. There are already 2,176 sheep on farms in the district but officials say the area could handle 5,000 with little need for winter feeding.

World's Greatest!

Australia's Marjorie Jackson speeded to a world record recently in winning the Olympic 100 metres dash at Helsinki. Here you see the Empire athlete getting away on one of her characteristic starts. Her time was 11.5 and she had the race well under control at the way.

Started Canning In Kitchen Now Has Profitable Business

SUMMERLAND, B.C.—Mrs. David Lingstone Milne, 65, who started canning for charity on a little machine fastened to her kitchen table 18 years ago, now is owner of a profitable business.

During depression years she canned peaches and sent them to relatives on the prairies and to Summerland hospital.

Soon she was supplying canned peaches, pears, apricots, prunes, carrots, tomatoes and corn and orders came in from many parts of Canada.

To keep pace with the demand, her sons, employed in a packing plant, built her a factory in their spare time. In the first year of its operation, she paid off \$1,600 owing on her house and bought a refrigerator, an electric washer and a typewriter.

The next year the boys quit the packing house and went to work for their mother; so did Mr. Milne, a science teacher.

Word-of-mouth advertising worked wonders. Soon customers began arriving at the little building with boxes to be filled with Mrs. Milne's preserves and orders came from stores, too. The plant was extended and modernized and at the end of the 1951 packing season Mrs. Milne said she felt she could call herself a success.

"It's a sort of miracle," she said. Mr. Milne died two years ago.

Push In The Face Probably Saved Woman's Life

WINNIPEG. — The onlookers thought he pushed her in the face just to be mean. But when they talked to her later they found out that he had probably saved her life. It happened this way. The young lady was crossing a street as a car was passing. The man beside the driver put his hand out the window and pushed her away — an act of rudeness, the onlookers thought. But when they went over to sympathize, she said, "I wasn't watching where I was going. If he hadn't pushed me I'd have walked right into the side of the car."

One of the onlookers said the car carried Ontario license plates. When he phoned the Press Free he said: "When you see a bit of odd thinking like that from a visitor to the city you would certainly like them to know it was appreciated."

SPADE-FOOTED TOAD FOUND NEAR LETHBRIDGE
EDMONTON.—A tiny spade-footed toad found near Lethbridge by Dr. Ernest R. Tinkham, one of the continent's foremost authorities on plant and animal life on North American deserts, may be the only one of its kind found in Canada. "I'll have to check, but I don't believe a spade-footed toad has ever been reported north of South Dakota," he said.

PEGGY

Egg Business Is Big Business In Canada

—\$100,000,000 Industry

(By H. L. Jones)

OTTAWA.—More than 20,000,000 Canadian hens are laying to the tune of some 400,000,000 dozen eggs a year. That adds up to around \$100,000,000 annual take for the egg side of the poultry industry.

The federal Bureau of Statistics has just come out with figures to show the hens weren't laying as well in June as they were in the previous month, but still better than they did in June, 1951. Average production per hen in June this year was 15.5 eggs compared with 17.4 eggs in May and 15.1 eggs in June last year.

The bureau didn't give the reason but the drop probably was due to increasing summer heat. Hens don't lay so well when it's hot. That probably explains too, why hens in the more moderate climates of British Columbia and the Maritime provinces have better production averages than the whole than in more extreme central Canada and the Prairies.

When temperatures go up and egg production goes down it hits the egg consumer in the pocket book. For instance, egg prices took a sharp drop around May, mainly because of a market glut, and sold at around 50 cents a dozen or less for grade A large in Eastern Canada.

With the onset of summer heat

Sask. Girl Wins First "Powder Puff" Derby At Toronto

TORONTO.—Jacqueline Sharpe, a comely blonde from Beechy, Sask., won the first "powder puff derby" of the season at Thorncliffe Raceway here, when she drove Red Guy to a one-length triumph. Red Guy is owned by J. Gram of Philadelphia, Pa.

The race between seven women drivers attracted the largest weekday crowd in the history of the Toronto harness racing track. Guy Zane, driven by Mrs. Wilbur Athorp of Chatham, Ont., was second by a nose over Little Willie, driven by Mrs. Mabel Holden of Wallaceburg, Ont.

FRANCE'S POPULATION

PARIS. — France's population has hit a new high of 42,400,000 despite the killing of 2,000,000 French in World War II, the French Statistics Institute announced.

Sales Agent Wanted

Toronto 1, Ontario

Bake this tasty CHEESEBREAD easily, speedily with new Fast DRY Yeast!

• New bread and bun treats are a treat to make with the new form of Fleischmann's Yeast! Never a worry about yeast cakes that stale and lose strength... new Fleischmann's Dry Yeast keeps full strength and fast-acting right in your cupboard. Get a month's supply.

CHEESEBREAD

• Scald 3 c. milk, ½ c. granulated sugar, 1½ tbs. salt and 4 tbs. shortening; cool to lukewarm. Meanwhile, measure into a large bowl ½ c. lukewarm water, 1 tsp. granulated sugar, stir until dissolved. Sprinkle with 1 envelope Fleischmann's Fast Rising Dry Yeast. Let stand 10 mins, THEN stir well.

Stir in cooled milk mixture. Stir in 4 c. once-sifted bread flour; beat with a rotary beater until the batter is smooth. Cover and set in a warm place, free from draught, let the yeast double in bulk. Work in 2 c. lightly-packed finely-shredded old cheese and 5 c. (about) once-

sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of dough. Cover and let rise until doubled in bulk. Punch down dough; turn out on lightly-floured board and divide into 4 equal portions. Cover lightly with a cloth and let rest for 15 mins. Divide each portion of dough into 3 parts; knead and shape into smooth balls. Place 3 balls in each of 4 greased loaf pans (4½" x 8½"). Grease tops and sprinkle each loaf with ¾ c. shredded cheese. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, 45-50 mins.

—By Chuck Thurston

FIRST AID

First Aid is just what the two words imply, namely the earliest possible intelligent aid or help given to the victim of an accident or sudden illness. This aid is usually of a temporary nature only, to be given at once, at the scene of the accident or sudden illness and before a doctor is available to assume responsibility.

Injuries To The Head And Spine

The civilization of which we are a part, with modern methods of transport has brought with it an ever increasing number of victims with injuries to the head and spine. These injuries are widely dispersed and the First Aider must be familiar with the management of these injuries and methods of transportation if these victims are to reach a doctor in satisfactory condition. Lives may be needlessly lost if people not properly instructed assume responsibility for the first aid care and transportation of these victims.

INJURIES TO THE HEAD

1. **Concussion**
The sudden application of force to the head will produce a shaking up or vibration of the brain. This will vary in degree depending upon the severity of the blow and the nature of the object striking the head.

A small object, such as a hammer, may displace its force in fracturing the skull and there may be little associated brain injury. A blow by an object such as a sanding may not fracture the skull but may profoundly shake and damage the brain even to the extent of causing death to the victim.

Injury to the brain with loss of consciousness is known as concussion. The depth and duration of the unconsciousness depend directly upon the severity of the concussion.

11. First Aid Principles

All victims who have sustained an injury to the head should be placed under the care of a doctor if they:

1. Have been or are dazed or unconscious
2. Have a scalp laceration or contusion
3. Have bleeding from the nose, mouth or ears.

A brief note should accompany them giving the following information to the doctor:

1. Whether or not unconsciousness was lost, and if not, the presence or absence of confusion.
2. If normal movement was present in the arms and legs.
3. If the pupils of the eyes were equal or unequal in size.

(c) **The Semi-Prone Position.** The single, most important first aid procedure for persons with a head injury is maintenance of unobstructed breathing. This is accomplished by immediately placing the victim in the semi-prone position. This position permits blood, vomitus and secretions

to run out of the mouth and nose, and if the victim is unconscious, will prevent the jaw and tongue from blocking back and obstructing breathing. For purposes of transportation, they must be placed on the stretcher in the semi-prone position.

(b) **Moving the Injured Victim.** A head injury may be accompanied by an injury to the spine. Any injured person who is deeply unconscious or if conscious is complaining of pain in the neck or back should be treated as though the spine were fractured. Such victims should be moved by at least four people two of whom will apply traction to the head and feet to prevent absolutely any movement that flexes, (bends forward) or twists the spine. Even if four people are not available, deeply unconscious victims must at once be placed in the semi-prone position as there is great danger of suffocation from obstruction to breathing or the aspiration of blood or vomitus into the lungs.

(c) **Scalp Injuries**
1. **Lacerations.** These should always be treated by a doctor because of the danger of infection. The scalp is very vascular and bleeding may be profuse. This can always be controlled by placing a thick sterile or clean pad over the wound and applying a firm pressure bandage. Nothing more should be done and particularly no attempt should be made to clean the wound, and no antiseptic should be applied by anyone but a doctor.

2. **Contusions.** These require no first aid measures, but as there may be an underlying depressed fracture of the skull, these victims should be referred to a doctor.

(d) **Fractures of the Skull**
These may or may not signify serious injury to the brain. They are more serious if:

- (1) The fracture enters the nasal sinuses or ear cavities.
- (2) The skull is driven in (depressed fracture).

1. **The fracture enters the nasal sinuses or ear cavities.** Such fractures are usually recognized by bleeding or the escape of clear, yellow spinal fluid from the nose or ears, in the absence of local injury. These victims should always be seen by a doctor because of the danger of infection (i.e. meningitis, otitis) and causing infection (i.e. meningitis, otitis). Packs or other material should not be placed in the nose or ear passages. If conscious, the victim should be warned not to blow his nose.

2. **The Skull is driven in.** These are known as depressed fractures and always under a contusion or laceration of the scalp. They are treated by an operation. The only means of being sure of the presence of such a fracture is by x-ray or by inspection at the time the laceration is being treated by a doctor.

(e) **Shock**
Head injuries do not cause severe shock unless there has been excessive bleeding from a scalp laceration or there are other associated injuries. These victims, therefore, should be kept comfortable but not too warm. They should not be surrounded by hot water bottles or hot blankets unless they complain of being cold. Placing a blanket over them is advisable unless the weather is very warm, but the purpose is merely to maintain normal body temperature.

(f) **Complications of Head Injury**
Many persons who have sustained an injury to the head, rendering them dazed or unconscious, will promptly recover consciousness and insist upon going on their way. Such persons should be under medical supervision for a period of 24 hours. Immediately following a head injury, there is no way of telling whether or not a clot will form between the skull and the relatively uninjured brain. This intra-cranial bleeding, if not treated by an operation will compress the brain and eventually kill the victim. Symptoms may develop within a few hours or over a period of days, depending upon the rate and amount of bleeding. A clot resulting from arterial hemorrhage will usually produce symptoms within a period of a few hours, due to the rate of bleeding. Torn veins bleed more slowly. While only a small number of all head injuries develop intra-cranial clots, a large number of these will die during the night in jails, hotels, rooming houses, or even in bed at home. The only way to prevent these deaths is for a responsible person to visit the "patient" every hour for a 24 hour period and, if asleep, to awaken him. If no responsible person will assume this task the victim must be admitted to a hospital. The development of mental confusion leading to deepening unconsciousness is an emergency and demands the immediate attention of a doctor.

Good News for Hunters

Western Provinces To Have Longer Duck Hunting Season

OTTAWA. — Good news for hunters and farmers in western Canada was contained in annual regulations fixing 1952 duck-hunting seasons for all provinces. Because of improved waterfowl conditions in western Canada, open seasons will be extended in Manitoba, Saskatchewan, Alberta and British Columbia. The bag limit will be increased in Saskatchewan.

For the first time, farmers will be allowed to obtain permits to scare ducks and other migratory birds, damaging their crops. It has been proved that if waterfowl are scared away from fields at their first approach they will tend to leave these fields alone, but if they are allowed to settle and eat grain for a day or two it is almost impossible to scare them away.

In the central and eastern provinces and in the Northwest Territories the length of open seasons and the bag limits remain unchanged. Regulations covering the use of firearms in hunting waterfowl remain the same as last year.

Dates of the open seasons and the length of the seasons vary from province to province. The season will vary in length from 45 to 69 days. No season will open earlier than Sept. 1.

J. M. MacLennan of the Canadian Wildlife Service said the breeding population of waterfowl in Saskatchewan is larger this year than in any year ago. Surveys indicated smaller increases in Manitoba, Alberta and British Columbia.

Mr. MacLennan said there is justification for lengthening the seasons in western Canada and increasing the bag limit in Saskatchewan.

Saskatchewan will have a 69-day open season compared with 59 last year. The daily bag limit will be increased to 10 from eight.

The Manitoba season will be extended to 58½ days from 51½; Alberta to 67 days from 60 and British Columbia to 66 days from 60.

The daily bag limit for ducks in Manitoba, Alberta and British Columbia will remain at eight. In other provinces not more than seven ducks may be taken in one day. No more

Attendance At Prince Albert Park Soars

PRINCE ALBERT, Sask. — Tourist attendance this year at Prince Albert National Park is expected to soar well above the 100,000 mark. Attendance in July was 37,908 compared with 36,488 in July last year. B. I. M. Strong, park superintendent, reports.

So far this year 71,721 persons have visited the park, compared with 55,570 last year in the corresponding period. Last year's total attendance topped 84,000.

How To Find Your Own Kick in Swimming

Many experts claim that everyone should use a certain number of kicks to one complete arm stroke. Some claim you should use a "six beat" (three kicks to each arm—six for the complete stroke) and others say an "eight beat" is best. However, it is reasonable to assume that you can't set any definite standard rule. It depends too much on the individual, the length of his legs, the power of his arm stroke and so on. For best results experiment until you find the "beat" that brings you the best results. Try using a "six beat" an "eight beat" and also a "ten beat".

While making your tests study the results asking yourself three questions: First: "What type of 'beat' increases my speed?" Second: "What 'beat' tires me least?" and Third: "What type of 'beat' seems to make my swimming easier, smoother and more relaxing?"

The main thing is to make a thorough test—use the "beat" that you find brings you the most for your efforts—in speed, endurance and style. Try these tests over various distances—perhaps you'll find an "eight beat" is best for long distances while a "ten beat" or even a "six beat" brings best results for a short sprint.

Remember, studying your own needs and requirements is an important secret of success in all sports and especially in swimming, so get the habit now!

If you have strong legs you will perhaps find that it is best to use a fast leg action with a slow arm action, or if you have strong arms and shoulders it is best to use a slow leg action and a fast arm action. However, while making use of your natural build to the best advantage, always strive to strengthen your weak points and, as in all sports, increase your all-round skill.

Learn to Pass With Both Feet

Time after time in soccer games throughout the country, the player who cannot kick and pass equally well with both feet loses wonderful opportunities to score or make a play that might result in a score. So take a tip and make up your mind to develop this skill. Though it may seem hard at first you will be surprised how easily the knack will come if you practice regularly every day. After all, skill is just a habit the same as any other habit you form, so if you try to use either foot equally well, you cannot help but develop the habit.

Salt Tablets for Hot Days

Salt is one of the vital elements in our bodies. When your salt supply is depleted you suffer from dizziness, nausea, and a general dry

feeling. Add to this the symptoms of fatigue caused by exertion during competition and you cannot possibly hope to do your best.

Accordingly, on those extra hot days make sure you keep up your body salt with a couple of salt tablets dissolved in a glass of water every four hours—do not double the dose—use only two tablets in a glass of water every four hours.

Take a tip from the Sports College Track and Field Testing Group and carry salt tablets in your medical kit.

Be sure you listen regularly to the Sports College broadcast over the C.B.C. national-wide network every Saturday. You will get further news about our special features and services. Consult your local newspaper or station for the broadcast time.

Kitchen Meditations

By JANE DALE

A MOTHER'S SONG

Goodnight, God bless you!
Wherever you be,
Goodnight, God bless you!
Until you come back to me.
In His safe keeping
I'm free from alarm;
In His safe keeping
You'll come to no harm.

When you were small children
And prayers had been said,
When clean and all cozy,
Tucked safely in bed,
Did kiss each one darling,
Turn down the light too,
Then call softly when leaving,
"Goodnight, God bless you!"

Now you are all grown up;
Away from your home;
Prayers follow you closely
Wherever you roam.
I think of you always
When each day is through.
As night falls I say softly,
"Goodnight, God bless you!"

The 1912 eruption of Mount Katmai, Alaska, was heard 750 miles.

Weekly Tip

REMOVING MILDEW

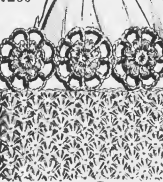

To remove mildew from cloth, put a tablespoonful of chloride of lime into a quart of water, strain it twice, then dip the mildewed places into this weak solution. Lay them in the sun. If the mildew has not disappeared when dry, repeat the process.

Patterns

Quick Pick-Me-Up!

7260

by Alice Brooks

Going places? Shrug the shoulder-warmer over strapless tops, all your separate! Most useful summer fashion—it's the least complicated to crochet!

Flower medallion border with small bell-shaped flowers. Easy to crochet in cotton or wool.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department,
Winnipeg Newspaper Union,
60 Front Street W., Toronto.
Be sure to write plainly your Name, Address and Pattern Number.
Exciting! Our 1952 edition of Alice Brooks Needlecraft Book! Brimful of new ideas, it's only Twenty-five cents. NINETY-ONE illustrations of patterns of your favorite needlecraft designs, plus SIX easy-to-do patterns printed right in the book.

LOCAL AND PERSONAL NEWS ITEMS

Mrs. J. C. Pifold is holidaying at Rosen Lake B.C.

Mr. and Mrs. W. Williams, of Calgary, visited here en route home from Spokane.

Miss Ella McDonald R. N., Vancouver, is the guest of her parents Mr. and Mrs. J. Yates

Born to Mr. and Mrs. Thomas Donaldson of Coleman on August 9, a son.

Born to Mr. and Mrs. D. Dureault of Coleman on August 9, a daughter.

Born to Mr. and Mrs. N. Cytko of Coleman on August 12, a son.

Mr. and Mrs. E. Somahor and family left yesterday for Victoria.

Mr. and Mrs. Chas DeAmico of Nordegg, visited relatives and friends throughout the Pass for two weeks.

Mr. and Mrs. J. Yates and daughter Mrs. Ella McDonald spent last weekend at Great Falls.

Mr. and Mrs. Henry Benson and children of Derwent Alta. visited with his aunt and uncle Mr. and Mrs. J. Stevenson at the lake. Henry went to school here and was enquiring about his old chums.

Mr. and Mrs. Geo. Roper and family returned this week after spending a vacation in B. C. and U. S. A. points.

Joan Johnston, of Calgary, visited over the weekend with her aunt and uncle Mr. and Mrs. W. F. Purvis.

Mr. and Mrs. Wilmer Cox and children of New Westminster, are in town this week renewing old acquaintances.

Mrs. T. Turner, of Rapid City Man., accompanied by daughter Jane, spent a week with her sister Mrs. W. Purvis en route home from a month's holiday with her parents in Vancouver.

Mr. and Mrs. J. Rezac and daughter Lorraine, of Port Alberni B.C., visited with relatives in the Pass. Mr. Rezac formerly owned the West End Market. He is now manager of Woodward's meat department.

Captain and Mrs. Wm. Carey are spending a three weeks holiday visiting with Mrs. Carey's parents at Rossland, B.C. and Captain Carey's sister in Vancouver, B.C.

Mrs. R. Fairful, of Nelson, was the guest of Mr. and Mrs. Wm. Garner. Mrs. Fairful, a former resident of Coleman, has taken this opportunity of renewing old acquaintances.

Mrs. John McDonald is a patient in the C.N.P. hospital.

Miss Helen Hazuka is employed at the Coleman Pharmacy.

Mr. G. Musprat returned last week from Kilmait B.C. where he was a business visitor.

Mr. and Mrs. Henry Chupka returned recently from a holiday spent at Edmonton.

Miss Peggy MacDonald left a week ago Monday for a holiday at Couer d'Alene.

Dr. and Mrs. Lelsemer and family returned last week after spending a holiday in U. S. points.

Mr. and Mrs. E. Haysom and family, of Medicine Hat, were recent guests at the home of his sister and brother Miss Edith and Hubert Haysom.

Mr. and Mrs. F. Llund and two daughters, of Calgary, accompanied by Mrs. W. Martland, Mrs. S. Colly and daughter Mary, spent a holiday at Spokane and Couer d'Alene.

Peter Allen and Leslie Owen travelled the new Kananaskis highway to Banff last weekend.

Mr. and Mrs. D. Kwasnie and family spent Sunday at Waterton.

Mr. and Mrs. Robt. Hill were Waterton visitors a week ago Sunday.

Wallace Neal has secured employment with the Forestry department as lookout at Carbon-dale.

Mr. and Mrs. E. Gushul returned last week from a holiday spent at Radium and various points in Central Alberta.

Mr. and Mrs. J. Owen and Mr. and Mrs. N. McKinnon were Lethbridge visitors over the weekend.

A new roof and stucco has recently been put on the Town Garage. J.A.C. D'Appolonia is the contractor.

The fire department showed their usual prompt attention at the fire back of the undertaking parlors Monday.

Mr. and Mrs. S. Dewar spent two weeks vacation in Cranbrook visiting their daughter and son-in-law, Mr. and Mrs. Donaldson.

Mr. and Mrs. Sidney Short returned last week from a holiday spent at Vancouver. They were accompanied by the latter's parents, Mr. and Mrs. Boulton of Lethbridge, who will remain at Vancouver for an indefinite time.

Mr. and Mrs. R. Edwards and daughter leave the end of this week for Vancouver, Mrs. Edwards having been called there due to the illness of her father. Mr. Edwards has served for the past four months as lookout at the Ironstone station.

Mr. and Mrs. James Hart, of Portland Oregon recently visited with old friends throughout the Pass, Mr. and Mrs. H. Chamberlain, Mr. and Mrs. G. Evans, Mr. and Mrs. A. Phillips, and Mr. and Mrs. S. Kirsway. Mr. and Mrs. Hart resided in Coleman for a number of years, leaving here in 1930.
